Salesforce developer with **8.5 years of experience** delivering solutions for global clients in healthcare, insurance, telecom and software across the USA, UK and Europe. Specialised in LWC, Apex and integrations on Health Cloud, Service Cloud and Sales Cloud

PROFESSIONAL SUMMARY

- Salesforce administration and development: customisation, security access, data validation, profiles, roles, permission sets, page layouts, reports and dashboards.
- Lightning Web Components (LWC), Aura and Lightning application development with SLDS, including Visualforce to LWC migration.
- Salesforce Headless 360, MCP, Claudeforce
- Integration with external system using REST API, Salesforce Connect, Integrations patterns, utilised custom apex web services and Bulk APIs
- Apex classes, triggers, Async Apex, SOQL, SOSL, Visualforce and test classes, with a focus on code optimisation within governor limits.
- Salesforce Flows and automations.
- Release management with Git, Jenkins, Azure DevOps and Copado, including metadata for 8 countries.
- Regular interaction with business and client teams to gather requirements and own deliverables.

WORK EXPERIENCE

Sr. Salesforce Developer (LWC / Salesforce Core)

Cognizant, Pune | Sept 2021 - Present

Air Liquide (UK, multi-region) | Mar 2024 – Present

Air Liquide is a world leader in gases, technology and services, supplying respiratory devices to patients. The project covers care monitoring, respiratory equipment delivery, and management of field agents, territories, appointments and vehicles across APAC, EMEA, France, Italy and Core regions.

- Managed and customised sandboxes for a multi-country setup, ensuring each country's records followed its specific business rules.
- Managed country-specific metadata for **8 countries** in a single global Git repository.
- Built and customised Flows, LWC, Apex and REST API integrations to optimise field operations.
- Worked on Health & Sales Cloud features and custom implementations

Humana Insurance (USA) | Sept 2021 - Mar 2024

- Designed and implemented an insurance management system on Health Cloud, enabling CRM representatives to handle medical policy enrolments, manage healthcare data and resolve inquiries.
- Built a custom call-centre application with Lightning Web Components, integrated with multiple external systems.
- Migrated the CRM application from Visualforce pages to LWC, **reducing load time by 40%** through optimisation.

Sr. Salesforce Developer (LWC)

IQVIA, Pune | Jan 2020 - Aug 2021

Vaccine Trial Management (USA)

- Developed a healthcare application for vaccine management and clinical trials, managing patient life stages and vaccination schedules.
- Built custom LWC components for the community portal and contributed to Apex development, test execution, requirement analysis and Health Cloud customisation.
- Handled production code fixes to keep the system reliable and performant.

Salesforce Developer

Accenture, Pune | Feb 2018 - Dec 2019

Vodafone (UK) | May 2019 - Dec 2019

- Enhanced product supply processes across commercial markets managed by regional and global product managers, building custom Sales Cloud solutions for product management workflows.
- Created and refined UX templates and translated customer requirements into technical solutions and optimised business flows.

Autodesk Inc. (USA) | Feb 2018 - Apr 2019

- Worked on the Campaign Management module, enabling marketing and sales representatives to create and manage campaigns across markets and geographies.
- Developed Partner and User portal features with role-based access.

PERSONAL PROJECT

Generic Travel Booking (LWC / LMS)

- Booking platform for buses, trains and ships built with Lightning Web Components and Lightning Message Service, with object-specific timings, routes and availability.
- Dynamic date and route selection, plus Google Maps API integration for live location tracking and route visualisation.

PUBLICATION

Author - *The Product Tactics: Unfold Your Customer* | Jan 2020

A strategy-driven book on how technology companies use customer psychology to build habit-forming products, with real product management success stories. [Read the book](#)
